

25 November 1958

MEMORANDUM FOR THE DIRECTOR

1. This memorandum recommends action in paragraph 5.

2. On Friday, 21 November 1958, in the Conference Room of the East Building, Col. Luker of the Industrial College showed the 26-minute film to which you have been asked to make a 2-minute introduction.

3. Witnessing the picture with me were the following Communism experts from the Office of Training: Messrs [REDACTED]

STAT

4. Col. George C. Conner, a Quartermaster officer of the Army in uniform, did a generalized, leisurely, non-impressive description of Marxism that was pitched in such a nonchalant key as to raise no one's blood pressure. It was a most unimpressive presentation.

5. The attached memorandum from Mat Baird represents the viewpoint of the five of us to saw the film. We are all in agreement that it would be undesirable for the DCI to do the introduction to this picture and it is again so recommended.
